Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Manitoba and the Northwest Territories: The Real New Northwest In fact, I do not believe there is a single acre of poor land in this Province. The Productions. of this country are large and varied enough to show that it possesses unusual wealth of soil. From the returns of last years crops the following showing was reached, although lessened by various cause, from that of previous years, some of which were local and some general, but mostly peculiar to that year. Among these were the very heavy rains that caught the wheat just as it was ripening. The following yields per acre was the showing made as above named: Wheat from 25 to 35 bushels, average 32 1/2 bu.; Barley 40 to 45, average 42 1/2 bu.; Oats 40 to 60, average 51 bu.; Peas 25 to 35, average 32 1/2 bu.; Potatoes average 229 bu.; Turnips 662 bu. Though these reports may all be true, I am satisfied that on wheat at least, they are too high for a full average of the Province, for they had very bad weather for their wheat harvest, and from a general inquiry made personally, I judge 20 bushels as nearer a Provincial wheat average, though I have nothing tending to reduce the average of the other grains and deem that they may be correct, as they mature rather earlier than wheat. The rest average I predict rather under than over the usual yield. Aside from the above enumerations, individual cases are not rare in this same section of wheat yielding 60 bushels from one bushel of seed; 100 bushels of oats to the acre have also been raised, and barley...
