Brand New Book ***** Print on Demand *****.Excerpt from A Mechanical Theory of the Solar Corona The essential principles which lie at the foundation of the theory here advanced were first published last spring in a short note entitled A Mechanical Theory of the Solar Corona. (Publications, A. S. P., No. 7; Mon. Not., R. A. S., Vol. 4, p. 372.) One year previous to this time (in February, 1889), I expressed my belief to Professor Holden and other astronomers at this Observatory, that the coronal form was produced by streams of matter ejected from the lower latitudes of the Sun. At the time Professor Holden desired me to work up the subject, and offered to give me any assistance in his power; but as I had not given much attention to solar observation, and was still less familiar with the physical researches of those who made the Sun a special study, I did not deem the subject a proper one for me to cope with at that time, although I intended to attack the problem later on. Through the liberality of Colonel Crocker,...
